Locating Edit Clear and Select Object commands

The **Edit Clear All** command has been moved to the Editing group on the Home Ribbon.

- Click the eraser (Clear) command button in the Editing group on the Home Ribbon.

The **Select Objects** command is located in the Editing group on the Home Ribbon in both Excel and Word 2007. In Excel, click the **Find & Select** command button on the far right of the Home Ribbon.

In Word, there is a separate **Select** command button located in the Editing group on the far right of the Home Ribbon. There you will find the **Select Objects** command.
