Print Titles Command in Excel 2007 and 2010

The Print Titles command from the Office 2003 File Page Setup dialog box has now been added to the Page Layout Ribbon as a command button.

1. Open the Page Layout Ribbon.
2. Click the Print Titles command button in the Page Setup group.

3. To repeat column headers at the top of each printed page, click in the box for **Rows to repeat at top**.
4. Click in row 1. The absolute address \$1:\$1 will appear in the Rows to repeat at top box.

5. Click **Print Preview** and view the Next Page. Notice the row 1 headers are repeated at the top of each printed page.
